FREELANCE PRODUCTION

WHAT I DO

Content support for teams that need clarity and execution.

Content research and packaging

I research events, news, product references, and creator topics, then turn them into social or newsletter-ready assets.

Digital content operations

I organize calendars, publishing workflows, source tracking, and support processes for small teams.

Coding agents and content skills

I build tailored AI-assisted workflows for repeatable research and content production tasks.

Video and YouTube design

I edit in DaVinci Resolve and develop thumbnails, hooks, and titles that set up a clear click promise.

01

Research the context

Gather sources, dates, references, and restrictions before writing.

02

Structure the story

Choose what leads, what can go, and what needs sharper explanation.

03

Package to publish

Deliver carousels, captions, videos, or systems ready for the team.

CONTENT

Product-focused social posts that answer practical questions and support purchase decisions for training shoes.

MY WORK

Product research, commercial angle, caption writing, and educational Instagram carousel concepts.

RESULT

The featured carousel prompted purchase questions and focused conversation around CrossFit footwear.

SOCIAL PACKAGING

Explain differences, benefits, sizing, and use cases without losing the product's visual energy.

CONVERSION SUPPORT

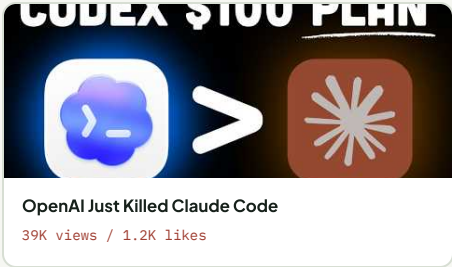

Turn buyer uncertainty into clear content prompts that invite informed questions and action.
